

HUDSON RIVER ENVIRONMENTAL SOCIETY

Call for Poster Abstracts

2017 Hudson River Symposium

Changing energy Landscapes in the Hudson Valley and Watershed

Wednesday May 3rd, 2017 at the Student Union Building, SUNY New Paltz

The [Hudson River Environmental Society](#) is soliciting abstracts from graduate and undergraduate students, environmental monitoring groups, resource managers, and scientists for a poster session to be held during its May Hudson River Symposium. This year's symposium will focus on the impacts that New York's energy goals and the present demand for fossil fuels are having and will likely have on the Hudson Valley and Hudson River watershed.

HRES is soliciting poster abstract submissions related to this year's symposium topic but also seeks posters on the following topic areas:

Academic, government and volunteer energy programs, local energy initiatives, climate change, biogeochemistry, land use impacts, ecosystem dynamics, fisheries and wildlife biology, ecosystem change, non-indigenous species, water quality, society and environmental history.

Note that poster board dimensions are 48" x 36" (landscape or portrait, your choice). Though you may submit more than one poster abstract, HRES may need to limit the total number of posters presented due to available space.

All abstract submissions must include the following (in M.S. Word format):

1. **Principal investigator (PI):** name, mailing address, phone, and email address;
2. **Names and affiliations of all Co-PIs;**
3. **Poster Title;**
4. **Abstract of 250 words or less;**
5. **Poster type:** undergraduate student, graduate student, or other
6. **If PI is a student,** include requested travel funds and expense types (see below).

Abstracts must be submitted by Friday April 14, 2017 to: chuck.nieder@dec.ny.gov

Questions? Contact Chuck Nieder at 518-402-9216

Student Travel Funds: On a first-come, first-served basis, travel funds will be available for students whose posters are accepted. Travel funds are limited to only those expenses related to travel to and from the conference including lodging if necessary. All students who wish to receive travel reimbursement must estimate the amount requested and the expense type (e.g., train fare, taxi, subway, mileage). The student registration fee will also be waived for *one* student presenter per poster. The admission fee is discounted for all students.
